Human genetic testing: implications and recommendations

Although genetic testing in Europe is based on high-quality scientific know-how, it can suffer from a certain level of technical errors. Moreover, the reporting on these tests is sometimes of poor quality. In the context of healthcare, a test should only be offered when it has been proven to be reliable and when there is a sound medical reason to justify it. A test validation system should therefore be established. Public concern regarding genetic testing revolves around the fear of misuse of genetic data and inappropriate access to such data by third parties. The confidentiality and privacy of all personal medical data, including information derived from genetic testing, is a basic right that must be respected. The individual has the right to know about test results, but also has the right to decide not to know.

What is the present situation as regards genetic testing?

- A. Testing is frequently carried out without a valid medical prescription.
- B. Scientists have the right to decide whether or not to divulge the results.
- C. The reporting of genetic data is always of a poor standard.
- D. Despite the expertise in the area, reporting is not always perfect.

Primjer situacijske procjene

3. Please consider the situation, and then select what you feel is the most effective AND the least effective response or action from the four statements.

You are working on a number of projects with tight deadlines and have a lot of basic information to gather. You have asked other colleagues for help but are unsure of their commitment to help you gather the information that you need.

	Most	Least
Spend time on your work to make sure that you have plenty of latitude/leeway in case your colleagues don't deliver the help you need in time		
Outline the help that you need from others and explain to them why this is important and the dates by which you need their individual contributions	X	
Reduce the risk by getting the information that you need yourself rather than relying upon other people		
Carry on with the tasks that you need to complete and if others do not contribute their parts report them to management		X

Primjer e-tray zadatka

From: Aaren Sutton, Secretariat of the Committee on Industry, Research and Energy, EP
To: Your name, Secretariat of the Committee on Industry, Research and Energy, EP
Date: 10/10/201X
Subject: Integrated proposal

Dear (Your name),

On 7 December 201X-1, the Commission submitted a proposal for a regulation of the European Parliament and of the Council to set emission performance standards for new passenger cars. This initiative forms part of the EU's integrated approach to reducing CO₂ emissions from light-duty vehicles.

The first reading has been completed and now I have to collect the opinions of the different stakeholders in order to propose a compromise solution to our Head of Unit at a meeting on 27 October 201X.

However, after today, I will be out of the office for the next two months (for medical reasons) and therefore will be unable to attend the meeting with our Head of Unit myself. Could you go in my place?

As a first step, I have asked Giuseppe Caligiuri from the Council to meet you in order to brief you thoroughly on the Council's position on the Commission's proposal.

Thank you for your flexibility.

Kind regards,
Aaren Sutton

Primjer e-tray zadatka

From: Giuseppe Caligiuri, Council
To: Aaren Sutton, Secretariat of the Committee on Industry, Research and Energy, EP
Date: 10/10/201X
Subject: Council position on Commission proposal 749

Dear Ms Sutton,

My apologies, but I am afraid that, starting tomorrow, I will be out of the office until 29 October 201X, which means I will not be able to meet you or your colleague in the next two weeks to give you a full overview of the Council's position regarding the Commission's proposal. However, to ensure you have some information to work with, I have briefly summarised our position on the main points of the proposal:

- Phase-in: 60 % of the vehicle fleet to reach 130 g CO₂/km in 201X+4, 75 % in 201X+5, 85 % in 201X+6 and 100 % from 201X+7 on.
- Long-term targets: Review in 201X+5 to reach a long-term target close to 95 g CO₂/km in 201X+12 .
- Specific emission targets: we propose the same targets as the Commission proposes: targets should be based on vehicle mass.
- Penalties. Until 201X+7, penalties will be based on deviation from 130 g CO₂ as follows: penalty per exceeded gram will be €25 for any deviation of up to 3 grams; €40 for deviations of up to 6 grams and €80 for deviations exceeding 6 grams. From 201X+7, the rate per gram exceeded will be €25 for a deviation of up to 3 grams and €95 for any deviation exceeding 3 grams.

I hope this provides you with some of the information you need to propose a compromise solution. We can arrange a meeting when I am back from holiday if you have any further questions.

Kind regards,
Giuseppe Caligiuri

Primjer e-tray zadatka

Example

How do you deal with the problem of the limited information you received from Mr Caligiuri? Rate the following actions on a scale ranging from totally disagree (--) to totally agree (++).

- A. When taking account of the Council's point of view in my compromise proposal, I use only to the information I received from Mr Caligiuri, as it is sufficiently specific.

-- - -/+ + ++

- B. I ask Mr Caligiuri if any of his colleagues could provide me with a more in-depth briefing.

-- - -/+ + ++

- C. I ask Mr Caligiuri for more documentation, just in case the Council's proposal conflicts with those of the other stakeholders.

-- - -/+ + ++

Vacancies - Temporary Staff

Temporary staff may be employed to perform a wide variety of highly specialised or temporary tasks. The length of the employment varies, at the European Commission it is a maximum period of six years. Selection competitions for temporary staff are generally run by the Institutions and Agencies themselves, rather than by EPSO. Candidates are therefore advised to regularly visit the websites of the [Institutions](#) and the [EU Agencies](#) if they are interested in such opportunities. After the closing date for applications, statistical updates on the few selection procedures for temporary staff being run by EPSO may be found on this page: <http://blobs.ec.europa.eu/eu-careers.info/en/>

Please note: Some vacancies listed here are only open to successful candidates of CAST selections.
